Testimonials

As a teacher, it's so fulfilling to see such bold products to be introduced in education. The language is easy to follow, and reminds me of my schools days for keeping myself entertained.

-Sheela Rani Simon, Teacher.

"This magazine approaches you in a unique manner. It discusses and uncovers topics which are usually avoided. The characters and the mini stories in the magazine provide a sense of familiarity and have a moral value to it. In a sense, both children and adults can relate to this. As a reader, the graphics make the content even more enjoyable. I would recommend this magazine to all my acquaintances and would want them to have the same joyous experience I had while exploring it."

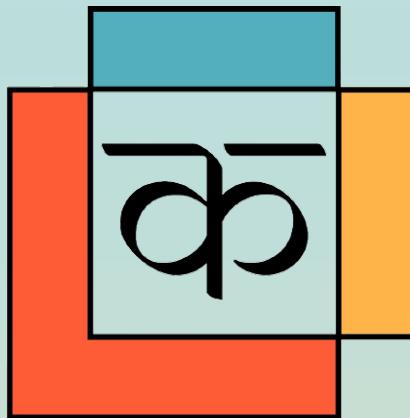

-Adity, 11th std student, Delhi.
